## REPORT OF COMMITTEE ON TOWN LIBRARY

---

The library has been well patronized the past year. 11,018 books and magazines have been taken from the shelves at the Home building and North Walpole branch during the past year and, considering that there are only 13,069 books on the shelves at the close of the past year, the figures speak for themselves.

During the past year 165 books have been added by purchase and 263 by gift.

The past summer Prof. Copeland of Harvard University, whose interest in our library has been of immense benefit to the committee, gave a reading, the proceeds of which have been added to the balance from a reading given the preceeding summer and from which source the committee has purchased books that they did not feel the library could afford from the regular appropriation.

The committee is pleased to announce that the library has received the income from a legacy of \$1,000.00 to be known as the George P. and Sarah Porter fund. This has yet to be accepted by the town.

Various repairs have been necessary the past year, chief of which was the overhauling of the heating plant. This has been done and the entire building is now comfortable.

Work was started on the curbing to be installed in front of the building but was postponed on account of the sudden onset of cold weather.

The committee would respectfully recommend the usual appropriation of \$600.00 for the ensuing year.

Treasurer,

## REPORT OF THE SUPERINTENDENT OF SCHOOLS

---

To the school board and citizens of Walpole:

I am submitting herewith my fifth annual report on the conditions of the schools now and the general activities of the district for the past year.

### REGISTRATION, 1923-24

The total registration for the year was 682 with 19 pupils in Bellows Falls high school, making the total at school expense 700. The registration in our own schools was distributed as follows: Kindergarten 31; rural 65; elementary grades 417; junior high 33; high schools 136. Of these, about 65 were transient registrations which kept our average enrollment at 600. The average daily attendance was 562.08, making a per cent attendance of 96.3. A record of attendance well above the average. There were 13 pupils from out of town registered in the elementary schools and 28 in the secondary.

### TEACHERS

We had last year six teachers with high school education supplemented by summer school training; 11 graduates of training school or normal schools; nine graduates of colleges; one graduate of a special training school. The total teachers employed was 27, counting two changes during the year. Of these 13 held licenses and 14 certificates. No elementary teacher was without experience except the substitutes.

### HEALTH

From examinations by the nurses the following statistics are available:

Defect	No. Cases	No. Cases
		Treatment Secured
Malnutrition	2	0
Hearing.	1	0
Vision.	21	3
Anaemia	14	0
Pulmonary	3	3
Skin disease	2	0
Orthopedic	3	0
Teeth	319	25
Tonsils	140	14
Adenoids	65	4
Enlarged glands	3	0
Unvaccinated	102	100

The small number of treatments secured is largely due to the fact that district nurses do not have time to do sufficient follow up work, arrange for clinics, etc.

### W. C. T. U. PRIZES

Last spring the W. C. T. U. offered prizes for the best essay on the harmful effects of alcohol and narcotics. The prizes were to be in two classes, one for the first five grades and one for the last three grades. The prizes were also divided into town and county divisions. Esther Moulthrop won the prize for the three upper grades while Ruth Rhodes won the prize for lower grades. In the county contest Esther Moulthrop's essay was adjudged the best and first prize was awarded her in June.

In November the Farm Bureau offered a variety of prizes for best essays on the ways in which a Farm Bureau can assist. Four of these prizes were won by children of the Christian Hollow school. These children were: Arthur Jennison, Ruth Rhodes, Gertrude Jennison and Isabelle Whitney.

## RURAL SCHOOLS

I am glad to report extensive repairs of the rural school buildings. The Ballam school has been repainted inside and out, and new chemical toilets have been installed which add greatly to the sanitary conditions of the building. The rearrangement of the windows adds greatly to the lighting. The Christian Hollow school has been painted inside and out and has had the windows so arranged that uniform light during the day is available and directed where needed. The stove in this building has been jacketed. The Drewsville school has had the same renovations as the others with regard to painting. This school has had a jacketed stove for some time and very good conditions in the arrangement of the light. The windows here were changed a year or more ago. Electric lights help to make this building more useful for community meetings.

The general spirit of the pupils is as good as in any school and they are receiving as good instruction as any. The time table for the teacher in any rural school is always crowded. The pupils from the seventh and eighth grades at the Ballam school are being transported to the village school. This is partly necessary so that there would be room for the first six grades. Every seat is taken there with a registration of 22.

## ELEMENTARY SCHOOLS

There were few changes in the teaching force this year. No change was made at North Walpole and only one at Walpole. This helps to make it possible to reach desired ends in preparing for the junior and senior high school work. The standard tests show a median that is at standard. There are some cases of retardation but are traceable to irregular school habits, native handicaps and the like.

The work in music is of the same high order. Work in art has been revived this year under the direction of Miss

Nutting. This is proving to be a decided addition to the children's education in that it helps to round out their development and gives anyone and all the opportunity to discover talent in this work which might lead to a vocation otherwise unnoticed.

### THE HIGH SCHOOLS

There were two changes in the teaching staff at North Walpole and one at Walpole.

The second year of work is being continued at North Walpole. Mr. Russell and Miss Shannon, with Miss Nadeau and Miss Ryan, the two new teachers, are conducting an exceptionally good school. The discipline is good, the rooms quiet and orderly and an earnest spirit of endeavor is everywhere evident. The approval for the year has been received from Commissioner Butterfield.

Walpole high school is continuing the work and spirit of last year but with the added experience of the year is doing better work. One of the state supervisors who has been coming here for five years told me that there was the greatest appearance of "settledness" and composure about the school that he had ever seen. I commend the spirit of industry and effort of both the pupils and teachers, yet I am aware of weaknesses which are being remedied daily by experience and practice. We need in both high schools to keep teachers from year to year to avoid shattering good plans well begun. We need to set out high schools on a permanent basis as regards teachers and look to the future. We have too many children registered in high school now to longer waver from year to year with inexperienced teachers.

The registration of tuition pupils is about 30.

### NEWSPAPER REPORTS

From time to time the high school has given "school Notes" to the papers. This year an outline was handed to

teachers of all grades and teachers have been asked to report to the papers weekly upon the topics outlined. The purpose is to let the parents know what is being done from week to week. The two papers circulated here are very accommodating and seem eager for the notes. Occasionally a teacher feels that class work is not wanted by the public as news. I think to the contrary and wish you who find items of interest in the news from time to time would speak to teachers a word of cheer.

On account of the "school notes" I am reporting less detail in regard to school work.

### ACCOMPLISHMENTS

The introduction of the fundamentals in the high schools.

The introduction of regular spelling texts through the 7th and 8th grades.

A more substantial noon luncheon and new equipment.

The publication of a school paper.

Safety locks attached to all main outside doors.

The repairs and improvements on rural school buildings.

The addition of drawing to the school program of studies.

The improvement of the heating apparatus in the primary building.

The installation of new toilets in the primary building.

The maintenance of a high average of attendance.

### CONCLUSION

In concluding I would recommend that some change be made during the summer with the windows in the primary building. The light there now comes in from three sides and the quantity is very limited.

I would recommend that we establish a rather permanent policy with regard to high school teachers so that our schools may not swing to and fro from year to year from the good

column to the poor as the teachers may be strong or weak. I would favor any income derived from bequests being used for the purpose.

I am deeply indebted to you, members of the board, for advice and to the citizens in general for generous support. To the teachers and pupils I am able to say that it is a pleasure to work with you.

Respectfully yours,

WILLIAM J. ENGLISH.

Walpole, N. H., Feb. 7, 1925.
